Re: Small Mine Exceeding Five Acres of Disturbance, Resource Design Solutions, Inc., RDS
502 61 & 62, S/023/066, Juab County, Utah
06-17

Dear Mr. Dunlop:

On December 8, 2000, we informed you by certified letter that your RDS 61 & 62 site has exceeded the status of a small mine. Current surface disturbance has been GPS surveyed at 6.65 acres. You were informed of two options you could choose in order to remedy the situation: 1) immediately reclaim the excess acreage to five or less acres, no later than January 10, 2001; or 2) post a \$25,000 transition surety within 30 days and submit a complete large mine application within 60 days.

On January 9, 2001, Larry Garahana of the Bureau of Land Management and Tom Munson of this Division, inspected the project area (inspection memo attached) to determine if the required reclamation had been completed. It was discovered that the work was never completed, but rather additional mining and grading had occurred since the last Division inspection. During a January 12, 2001 telephone conversation, you informed Mr. Munson that you were working on getting a bulldozer to finish the regrading and reseeding to bring the site down to less than five acres and, therefore, remain under the small mine status.

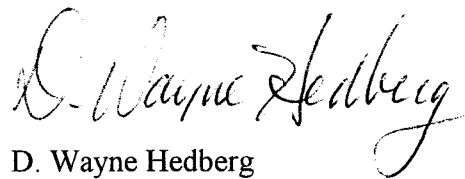

The Division will grant an extension to February 16, 2001, in order for you to complete the necessary regrading and seeding to reduce onsite disturbance below five acres. If this work is not satisfactorily completed by that deadline, we will be forced to initiate formal enforcement action as outlined in our December 8, 2000 letter.

0001

If you have any questions or concerns with this letter or you cannot meet this deadline, please contact me, or Tom Munson immediately at (801) 538-5286 and 538-5310 respectively. Thank you for your assistance in resolving this matter in an expeditious manner.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program

TO: Minerals File

FROM: Tom Munson, Senior Reclamation Specialist *P*

RE: Site Inspection, Resource Design Solutions, RDS 61 & 62, 3-23-000, Juab County, Utah *502 62*

Date of Inspection: January ¹⁰ 9, 2001
Time of Inspection: 11:30 a.m.
Conditions: Sunny
Participants: Larry Garahana, BLM; Tom Munson, DOGM

Purpose of Inspection: To inspect site to determine if reclamation has been done to bring the status back down to less than five acres

It appears they have not reclaimed, but have done more mining and pulled out more blocks of granite. In more recent conversations since our initial inspection with Joe Dunlop, he stated that the bulldozer that was out there was not his and he would not be able to use it. Instead, he would have to get his friends bobcat to do the reclamation. It is felt this is not a feasible option and a bulldozer is needed to complete the regrading work.

Photos were taken of the site.
